

Spring Into Earth Month By Learning About Recycling

Sign up for a free field trip at the landfill to learn about recycling and waste reduction. If you can't come to us, we can bring the experience to your class room.

Reduce, Reuse, *then* Recycle

Students will learn:

Standard Objectives and Intended Learning Concepts

- Manifest scientific attitudes and interest by demonstrating a sense of curiosity about nature.
- Evaluate evidence that indicates a physical change has occurred.
- Compare and observe what happens to an object when it is transformed or changed through the recycling process.
- Identify groundwater and the importance to keep it clean.

Call The Recycling Information Office to
Schedule your Free Tour or Presentation.

Bird Watching At The Landfill

The Landfill is more than a place you take garbage. Out at the landfill you can watch birds through our binocular at our Wildlife Overlook Gazebo as part of your field trip.

For this event please allow an extra 20 to 30 minutes.
This site is fun and educational for all ages.

Some birds to see:

- American White Pelicans
- Canadian Geese
- White-faced Ibis
- American Avocet
- Great Blue Herons
- Black-Necked Stilts
- Bald Eagles
- Snowy Egret
- Western Grebe
- Yellow Headed Blackbirds
- California Gulls
- Tern

(Available March —October)

weather permitting

When scheduling field trip please let us know if you desire this attraction,
so we can allow proper time.
